

Welcome to the world of Vintage Crew. We are fans of vintage that is related to the great music styles of the past. Vinyl records, 45s, 33s, fashion, furniture we love it, as long as it related to music lifestyles. We are such big fans that we travel around the world to find the best of the best, the rarest, and the most sought after vintage. Vintage Crew wants to focus on finding it and working with selected partners for the distribution. It is some what of a new concept in the world of vintage, a concept that we believe has great advantages to you as our partner.

**Concept:**

Depending on your business, Vintage Crew will provide you with records, apparel or furniture from our warehouse inventory collection at no charge. To maximize your sales revenue, we customize our supply to the needs of your store. You only pay a percentage to the crew when items are sold.

**Advantages to you as Partner:**

- **Name Exposure:** as a partner we will include you on our website as a distributor, we will promote your name on our website (vintagecrew.com) and wherever we can. This has the potential to increase your client basis: more customers for you means more customers for us.
- **Community:** Vintagecrew is about a community of people who like vintage, we have monthly emails, we have Vintagecrew events, we have a client base, etc. As a partner you become part of that community ...
- **Flexibility:** as a partner Vintagecrew will put Vintagecrew supply in your store at no charge. If certain items don't sell after a one or two month period ... no problem, we will simply take the items that don't sell back and put other ones instead. You get stock rotation for free.
- **Low expense:** as a store owner you simply provide space, you have no expenses to search for sellers of collections or producers.
- **Avoid investing your money in stock:** you don't have to invest money or borrow money to finance your stock. We provide free financing.
- **More revenue:** By having access to our inventory and frequent rotation of your stock you will become more competitive and increase your sales revenue dramatically.
- **Source:** We have strong relationships abroad that allow us to source from locations to which you do not have access or maybe do not even have the means to reach.
- **Help in financing:** Do you have excess inventory? Are you going through a slower period in sales and need additional cash? We can finance part of your stock to provide you financial liquidity that banks will never offer you.

If you have any interest in working with us or you want to discuss further details then please feel free to contact us as we are always open to discuss the framework of our cooperation with our partners.

Best regards,  
The Vintage Crew Team
